

About artwork

We continue to find consistent joy in seeing students' learning in the Roots of Empathy program/programme **come to life through their artwork**. It's invaluable to us for creating a national and international picture from the perspective of children who participate in our Roots of Empathy programs/programmes.

What can Roots of Empathy teach the world? To
bring people together!

- Grade 3 Student, Quispamsis, New Brunswick (2021)

We often use artwork in Roots of Empathy presentations, reports, and proposals throughout our program/programme year. By sharing children's artwork with us, we are able to showcase the program's/programme's impact. Our Annual Program/Programme Evaluation report is a vital tool in communicating the program's/programme's success, and we believe that children's voices are among the most powerful. The report will be shared with all participants, including you, teachers, and volunteer parents, so that you can see the impact you have had on children. Thank you for sharing children's artwork with us.

✓ You may not share artwork on social media.
